

Simon HAZARD

Frontend developer

Le Havre

simon.hazard@outlook.fr - simonhazard.com - @SimonHazard on Github

DESCRIPTION

Developer specializing in the TypeScript ecosystem, open to working with any modern framework or library. Passionate about front-end development, I stay curious about new technologies and best practices, always striving for clean and high-quality code.

EXPERIENCE

Proxiad Axe Seine

April 2021 - now

Fullstack Developer

Work on multiple projects integrating different development teams.

- Main use of TypeScript, React and GraphQL
- Architect and set up monorepo platforms with modern tools (Shadcn, Turbo, Apollo, Tailwind, etc...)
- Contribute to both service center and customer projects with a cross-functional approach
- Promote DevOps culture by implementing CI/CD pipelines and automation (GitLab, Terraform, Docker)
- Work with cloud-based architectures on GCP (Doc AI, Cloud Run, Cloud Functions)
- Ensure high code quality through rigorous code reviews and best practices

Edifycad

April 2020 - August 2020

Final year internship

Contribution to a company-exclusive component library (React / TypeScript / Storybook / EmotionJS)

Caux Seine Agglo

January 2019 - February 2019

Final year internship

Web application design and development (JavaScript, PHP, AJAX, MySQL)
